How many sounds?

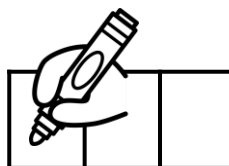

1. Read aloud the word. Have the student listen and count the number of sounds within the word.

Push the sounds.

2. Have student push the sound they hear within the word to each box. They will state the sound as the chip is pushed.

Write the sounds.

3. Have student remove each chip and write the matching sound for each.

Rewrite the sounds.

4. Have student rewrite the high frequency word underneath the boxes and read the word for fluency.
