# Visual Discrimination: Set Five

Thanks so much for downloading my [Visual Discrimination: Set Five Centers preview](#). This packet is designed to offer a fun and engaging way to practice visual discrimination skills. You will be able to use these centers as a supplement to your whole-group lesson and/or as an independent literacy or math center option. The centers can also be used in a small-group format. To prep the Set Five centers, simply print the mats. To play the center, you will offer the students the center mats and snap cubes or a manipulative of choice. The students will cover the matching letters using their visual discrimination skills. You can choose to laminate the center mats for a more durable use. There are 52 center mats included within this packet.
