

HANDS-ON AND ENGAGING

SHAPES BOOKS

©Tara West - Little Minds at Work

■ A NOTE FROM TARA WEST

Thanks for downloading the 10 free 2D shapes books. These books can be used in multiple settings: whole-group instruction, small-group instruction, intervention, math center, and/or at-home supplement. Students will work on identifying the number, tracing the number, writing the number, and playing hands-on games. If you have any questions, feel free to email me at littlemindsatworkLLC@gmail.com, follow me on [Facebook](#), or visit my blog, [Little Minds at Work](#).

Printing Instructional Booklets: It is very important to follow a few quick printing tips. You can view a tutorial video [HERE!](#) First, you will type in the page numbers you wish to print. Next, select “fit”. This will help the reader to fill the entire page and leave minimal white space. Then, select “print on both sides”. Be sure to also select “flip on short edge”. Lastly, select for the reader to print. NOTE: The books are best printed using Adobe Reader. Adobe Reader is a **free download**. The book will print out on two sheets of paper. You will simply fold the books. Double staple on the left side (optional).
