Printing Instructional Booklets: It is very important to follow a few quick printing tips. You can view a tutorial video [HERE!](#) First, you will type in the page numbers you wish to print. Next, select “fit”. This will help the reader to fill the entire page and leave minimal white space. Then, select “print on both sides”. Be sure to also select “flip on short edge”. Lastly, select for the reader to print. NOTE: The books are best printed using Adobe Reader. Adobe Reader is a **free download**. The book will print out on two sheets of paper. You will simply fold the books. Double staple on the left side (optional).
